Not sure what components you may need for your new fencing project? Check out the fence calculator tool on ironcraftfences.com.

Step by step, the fence calculator tool guides you through the process of creating your fencing order. By answering a series of questions, the calculator helps you to determine the number of panels, gate(s), each post, and components you will need to complete your project.

1

Select desired style

2

Either enter the linear feet of your total fencing run and number of corners OR enter your address and draw out your fencing run to determine linear feet using Google Maps

3

Answer a series of 8 questions that detail the specifics of your project

4

A printable shopping list is generated
